Embargoed Press Release – Confidential; Not to be release until July 18<sup>th</sup>, 2018

July 2018 Quote Sheet for the following press releases:

- RFP press release entitled: ‘**Circulate Capital Announces RFP Process To Invest In South and Southeast Asia-Based Businesses Seeking Capital to Accelerate Ocean Plastic Solutions**’
- Launch press release entitled: ‘**Circulate Capital Launches New Venture to Invest in Solutions to Ocean Plastic**’

Company	Quote	Name and Title
3M	 “The problem of plastics in the ocean is reaching crisis levels and we are thrilled that Circulate Capital will invest in sustainable solutions. Our partnerships with Closed Loop Foundation, Ocean Conservancy and other leading companies strengthens our commitment to improving lives, especially for those communities in South and Southeast Asia where many 3Mers live and work.” – Michael Stroik, Director, 3Mgives	Michael Stroik, Director, 3Mgives
American Chemistry Council	 “Growing and improving systems to collect used plastics and convert them into valuable products is the fastest and most certain means to clean up our ocean and improve peoples’ lives. We look forward to working with Circulate Capital to advance this important cause,” said Steve Russell, vice president of plastics for the American Chemistry Council. The Coca-Cola Company	 “We are excited to support [insert new name for Closed Loop Oceans] and their aim to prevent the flow of ocean plastic,” says Ben Jordan, Senior Director, Global Environmental Policy, The Coca-Cola Company. “We aim to be a driver of the circular economy as we continue toward our vision of a World Without Waste.”	Ben Jordan, Senior Director, Global Environmental Policy
DOW	 “Circulate Capital is the type of active engagement we need to accelerate the implementation of waste management systems with effective recycling processes that keep plastics waste out of the ocean, “said Diego Donoso, President of Dow Packaging & Specialty Plastics, ““With the growing economies across Southeast Asia comes increased demand for more consumer packaged goods, but unfortunately the development of waste management infrastructure has not keep pace with the increased amount of waste that is being generated. This initiative can serve as a model for how we can bring solutions to bear on this problem with the goal of keeping ALL waste out of the ocean.”	Diego Donoso, President of Dow Packaging & Specialty Plastics
Kimberly Clark	 “Oceans are critical to life on earth and we are committed to working with partners like Closed Loop Ocean to establish disposal solutions that stop waste from leaking into them,” said Lisa Morden, Kimberly-Clark’s vice president of Safety and Sustainability. “At Kimberly-Clark, we are working to eliminate waste in our processes, products and packaging and collaborating with partners across our value chain to help enable the circular economy, one which is restorative and creates value.”	Lisa Morden, Vice President of Safety and Sustainability
P&G	 “P&G is proud to be part of the (insert name of organization once it has been finalized). Just like the Close Loop Fund, this will address the root cause and help develop the right infrastructure to drive positive change. Working together, we believe we can halt the flow of plastics into the world’s oceans,” said Steve Sikra, P&G Associate Director, Corporate R&D, Global Product Stewardship.	Steve Sikra, P&G Associate Director, Corporate R&D, Global Product Stewardship
Partnership in Environmental Management for the Seas of East Asia (PEMSEA)	 “Research has shown the critical role that countries must play, including those in East Asia, in addressing global ocean plastic pollution. Through 25 years of coastal management experience, PEMSEA has seen the importance of choosing the right partners for developing solutions with impact. As a champion of integrated management and blue economy solutions for the region, PEMSEA supports the efforts of Closed Loop Ocean and its innovative approach to tackling ocean plastic pollution.”	Aimee Gonzales, Executive Director, PEMSEA
PepsiCo	 “Plastics waste is a global problem that requires multi-stakeholder responses. We are delighted that Closed Loop Partners is applying their expertise to identifying and supporting innovative solutions in regions of the world that have the most critical need for improved recycling infrastructure.” - Roberta Barbieri, Vice President, Sustainability, Global Water and Environmental Solutions, PepsiCo	Roberta Barbieri, Vice President, Sustainability, Global Water and Environmental Solutions, PepsiCo
World Plastics Council	 “From lowering our carbon footprint to conserving resources, plastics benefit people and our environment in enumerable ways; however, we must urgently advance our systems for managing these resources with greater circularity, and we must stop the flow of plastics from entering our rivers and oceans. The World Plastics Council is pleased to support Circulate Capital and the communities it will serve,” said Jim Seward, chair of the World Plastics Council and vice president, joint ventures and international for LyondellBasell.
